OVERVIEW

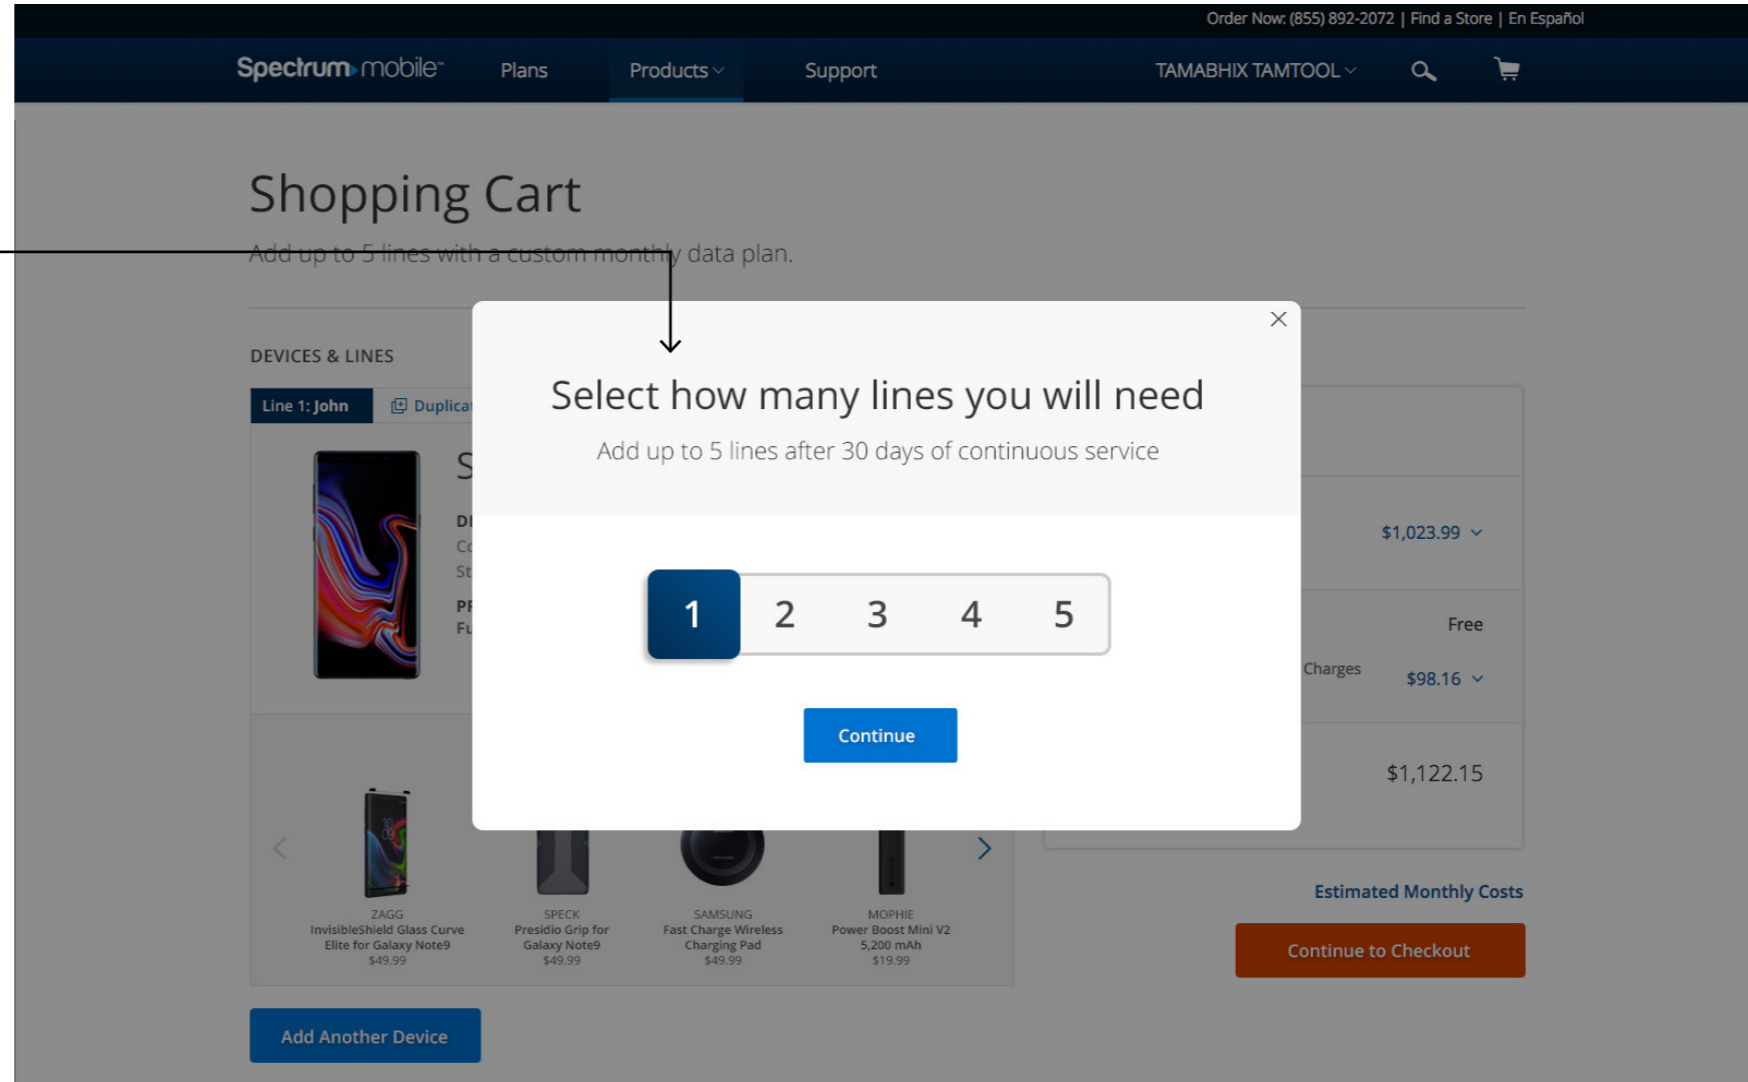

All steps in the buyflow leading up to the shopping cart will keep the same functionality currently being used on the Spectrum Mobile website.

THESE STEPS INCLUDE:

1. Home, Plans, Phone, and Tablet Pages (to select a device)
2. Device Details Page
3. Let's Get Started Page
4. Customer Login Page
5. "SSN/DOB" Page
6. "Customize Your Plan" Page

After selecting "Add to Cart" on the "Customize Your Plan" page (part of the current Spectrum Mobile buyflow), users are directed to the new shopping cart for multi-line ordering. Before viewing their cart, the user must select how many lines they will need.

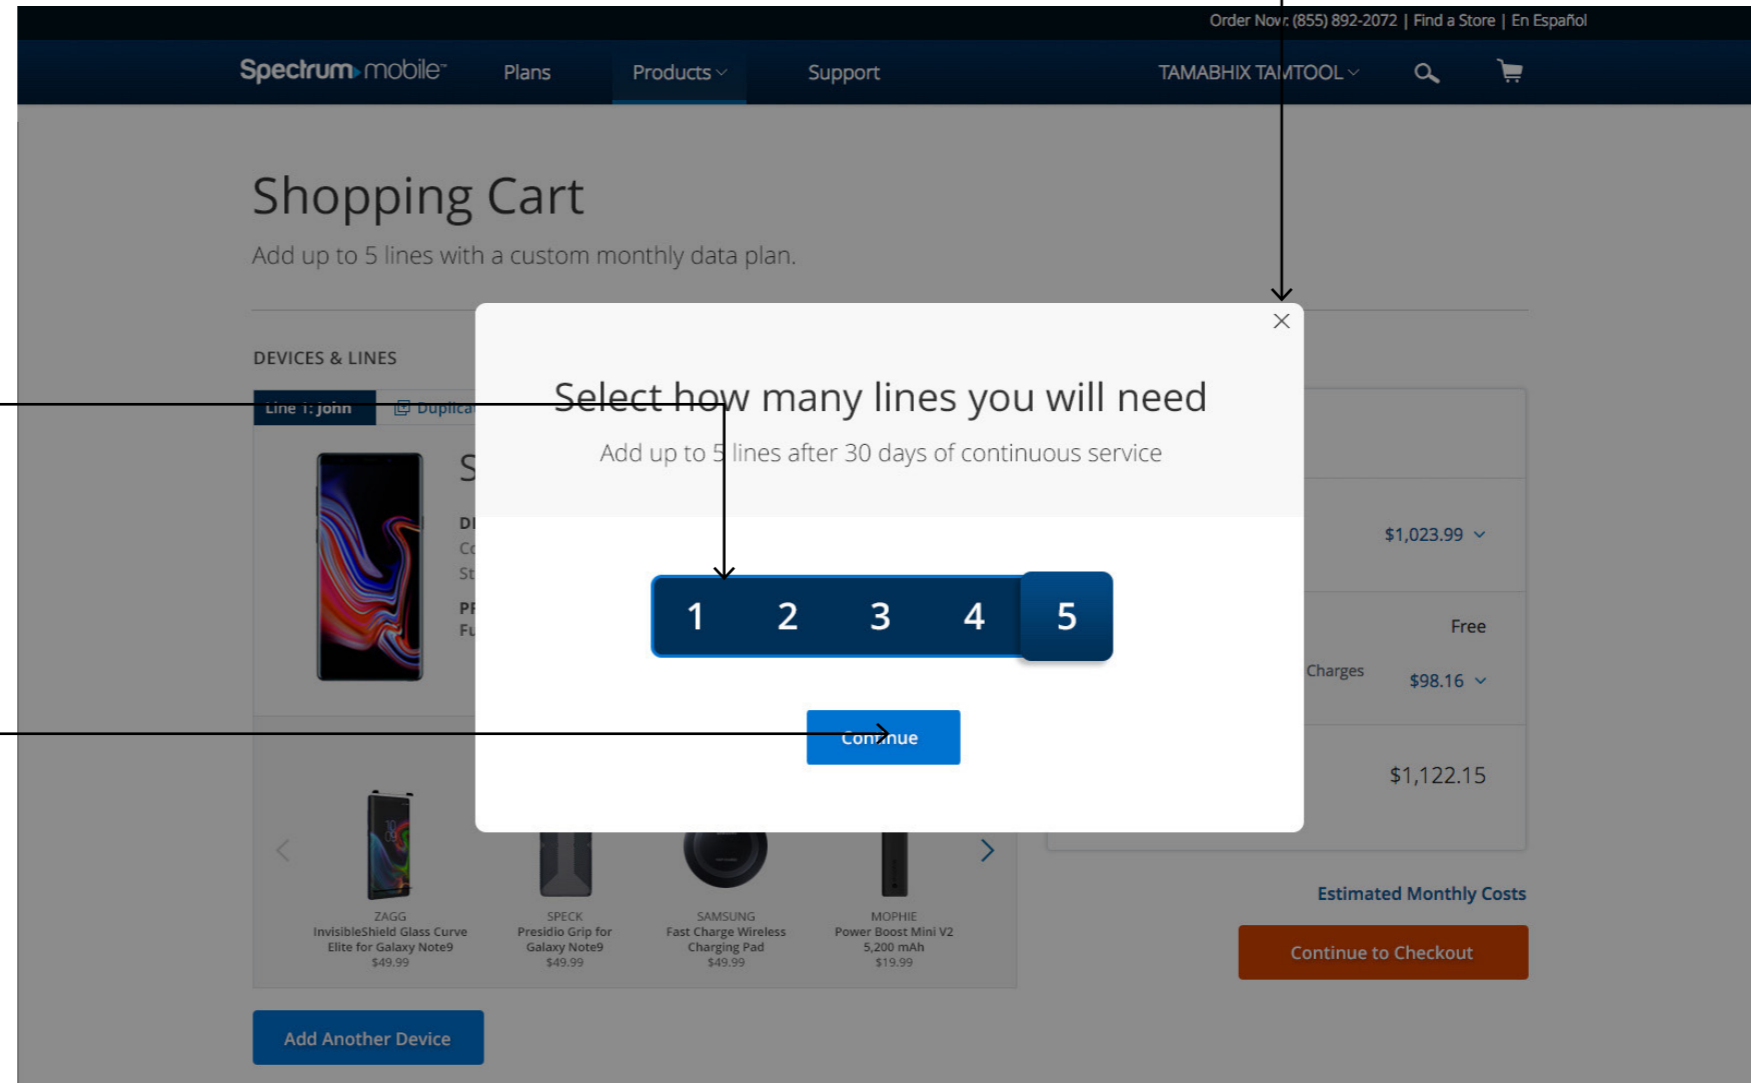

Existing customers will be allowed to add up to 5 lines to their shopping cart. New customers will only be allowed 2 lines (see page 7 for new customer functionality).

The user can exit the popup by selecting the "x" in the top right corner. If they do so, their shopping cart will reflect the 1 line they have already completed filling out information for. (See: "Line Section 3: Line 1 Only")

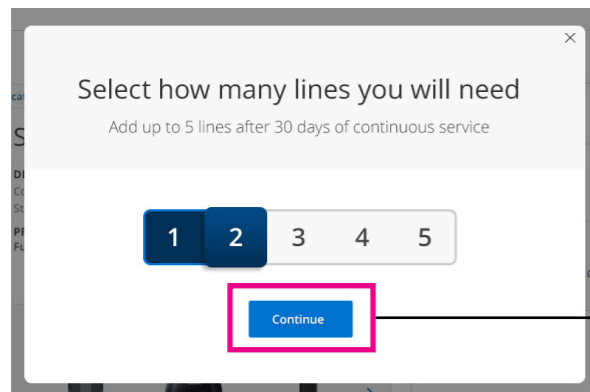

The tabbed slider allows the user to add up to 5 lines in their shopping cart.

Once the user selects the number of lines they want, they click "continue" to bring them into the shopping cart.

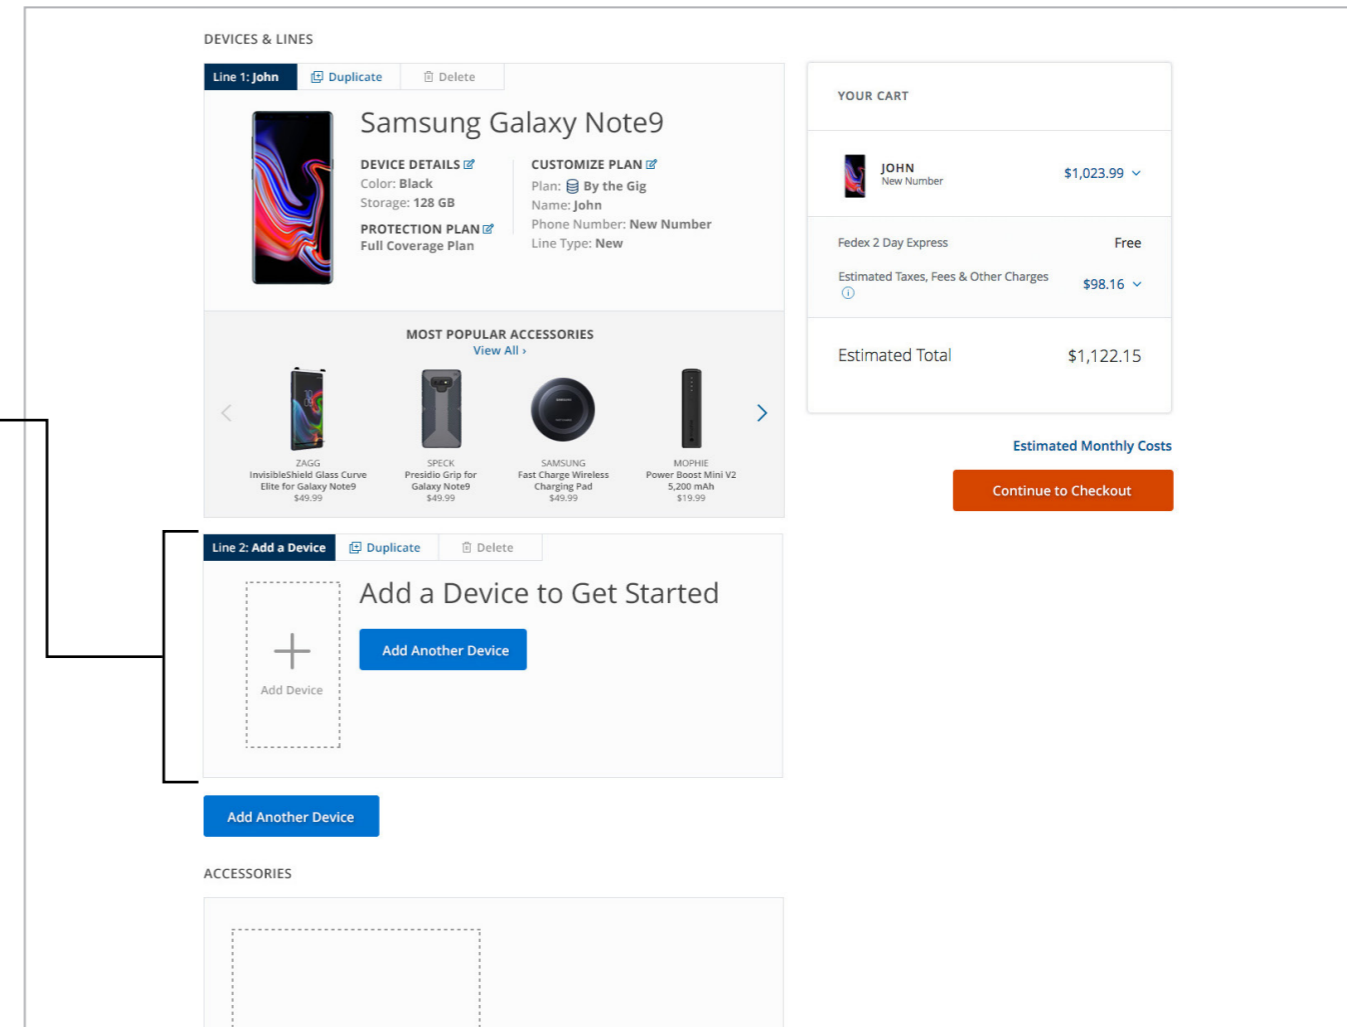

New customers using the buyflow (those who have not been customers for more than 30 days) will only be able to select 2 lines of service. Lines 3-5 will not be inactive.

The screenshot shows the Spectrum mobile website's Shopping Cart interface. At the top, there is a navigation bar with the Spectrum mobile logo, links for Plans, Products, and Support, and a user profile for TAMABHIX TAMTOOL. The main heading is "Shopping Cart" with a sub-heading "Add up to 5 lines with a custom monthly data plan." Below this, there is a section for "DEVICES & LINES" with a "Line 1: John" header. A modal dialog is open in the center, titled "Select how many lines you will need" with a sub-message "Add up to 5 lines after 30 days of continuous service". The dialog features a row of five buttons labeled 1 through 5, where button 1 is highlighted in blue. A "Continue" button is located below the row. In the background, the shopping cart items are visible, including a smartphone and various accessories like a ZAGG InvisibleShield Glass Curve Elite for Galaxy Note9 (\$49.99), a SPECK Presidio Grip for Galaxy Note9 (\$49.99), a SAMSUNG Fast Charge Wireless Charging Pad (\$49.99), and a MOPHIE Power Boost Mini V2 5,200 mAh (\$19.99). The estimated monthly costs are shown as \$1,023.99, Free Charges, \$98.16, and a total of \$1,122.15. A "Continue to Checkout" button is at the bottom right.

When a user selects to add another line, a blank template is created in the shopping cart. For each line added, a new template is created. In this example, the user selected to add a 2nd line.

***Note:**
For existing customer, up to 4 templates can be created if the user selects 5 lines. New customer can only add 1 template. Templates stack underneath each other in the shopping cart.

Display the name of the line as "Add a Device".
Once a user completes the process of adding
Line 2, the header will update to the name
associated with the line. (Ex. Line 2: Andrew)

User can click the grey dotted box or "Add
Another Device" button that will trigger the
popup to add a new device. (See popup in
"Section 4: Adding Line 2")

The screenshot displays a mobile service cart interface. At the top, the 'DEVICES & LINES' section shows two lines. Line 1 is labeled 'Line 1: John' and includes a Samsung Galaxy Note9 with details like 'Color: Black', 'Storage: 128 GB', and a 'Full Coverage Plan'. Line 2 is labeled 'Line 2: Add a Device' and features a grey dotted box with a plus sign and the text 'Add Device', along with a blue 'Add Another Device' button. Below the lines, there is a 'MOST POPULAR ACCESSORIES' section with four items: ZAGG InvisibleShield Glass Curve Elite for Galaxy Note9 (\$49.99), SPECK Presidio Grip for Galaxy Note9 (\$49.99), SAMSUNG Fast Charge Wireless Charging Pad (\$49.99), and MOPHIE Power Boost Mini V2 5,200 mAh (\$19.99). To the right, the 'YOUR CART' section shows a summary: 'JOHN New Number' for \$1,023.99, 'Fedex 2 Day Express' for Free, and 'Estimated Taxes, Fees & Other Charges' for \$98.16. The 'Estimated Total' is \$1,122.15. Below the cart summary, there is a section for 'Estimated Monthly Costs' with a 'Continue to Checkout' button.

Select how many lines you will need
Add up to 5 lines after 30 days of continuous service

1 2 3 4 5

Continue

If only 1 line of service is selected, the user is presented the shopping cart with only that 1 line. No template for adding another line is available.

- ZAGG InvisibleShield Glass Curve Elite for Galaxy Note9 \$49.99
- SPECK Presidio Grip for Galaxy Note9 \$49.99
- SAMSUNG Fast Charge Wireless Charging Pad \$49.99
- MOPHIE Power Boost Mini V2 5,200 mAh \$19.99

STEP 1: SELECT DEVICE

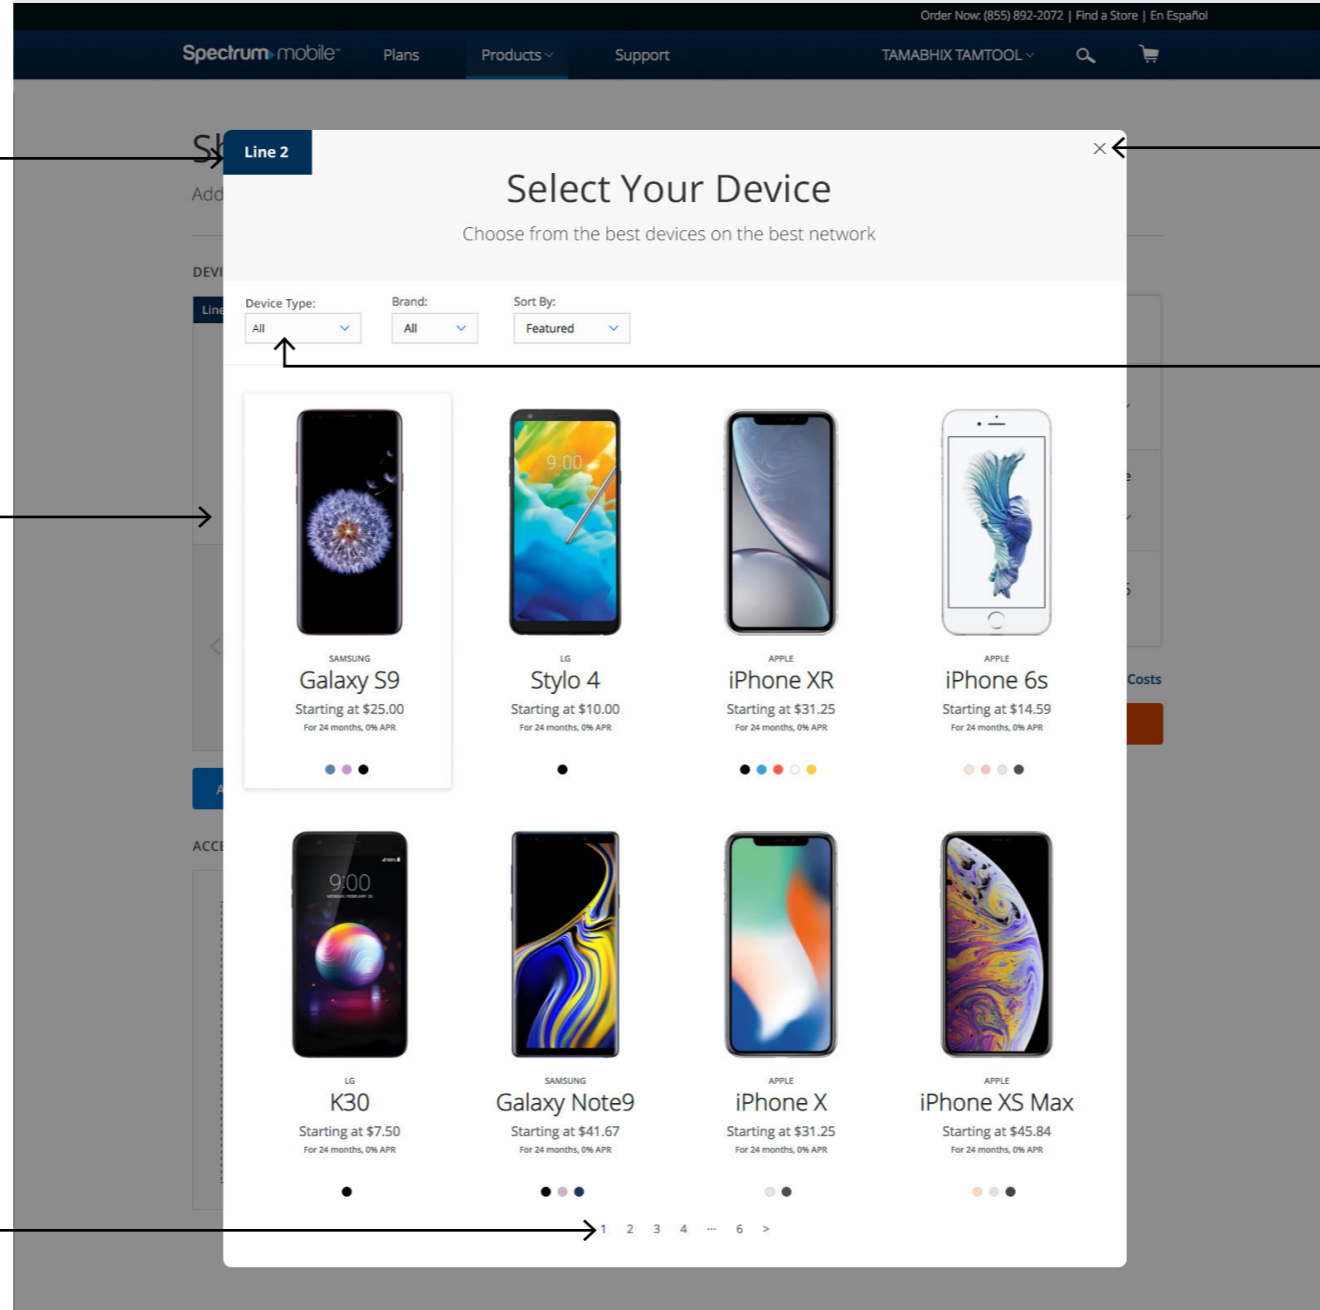

Selecting one of the buttons opens a popup modal allowing the user to add a new line. Users can add a new line using the same process they did for Line 1 - first, by selecting their device.

Indicates the line the user is currently in the process of adding to their cart. In this example, the user is adding "Line 2".

Content in the popup uses the same layout, design, and functionality as the current product page on the Spectrum Mobile website. The popup modal displays 8 devices per page.

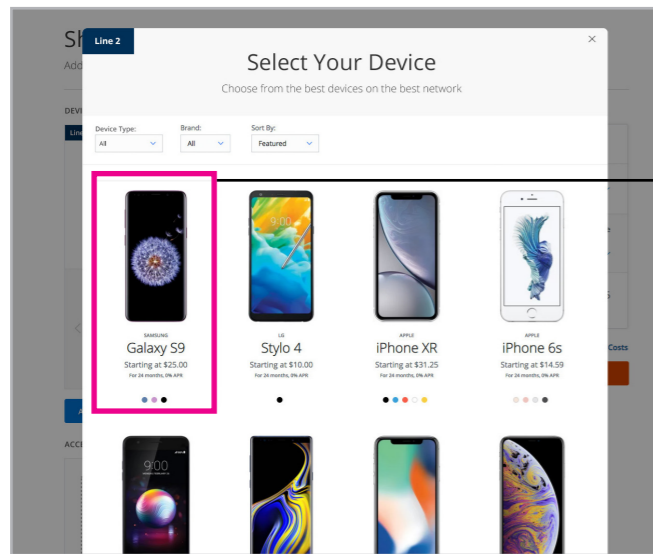

Pagination uses the same functionality as the Spectrum Mobile website

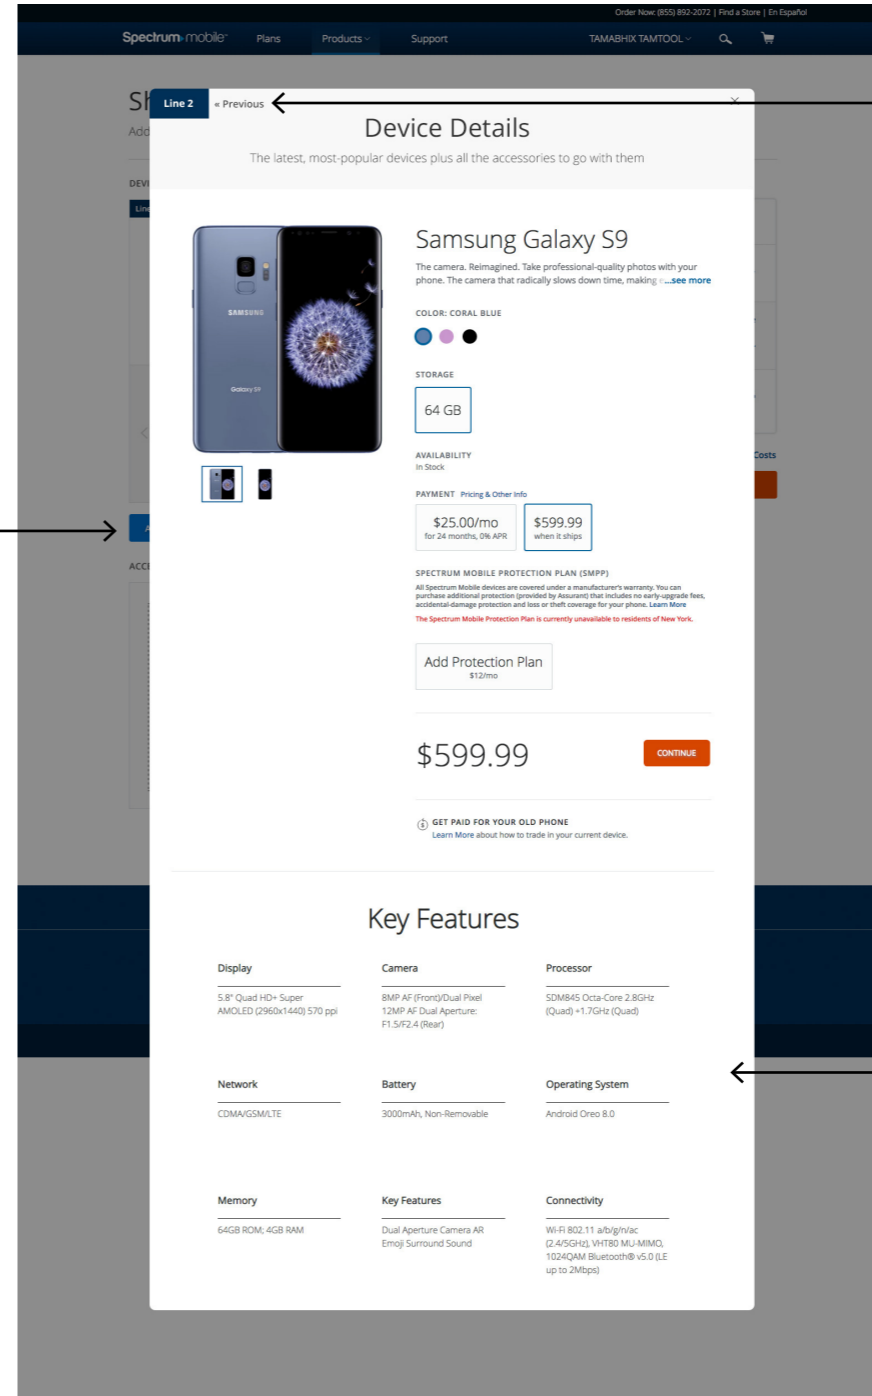

Exit the popup modal at any time by selecting the "x" button.

"Device Type" filter lets the user view phone or tablet devices.

STEP 2: DEVICE DETAILS

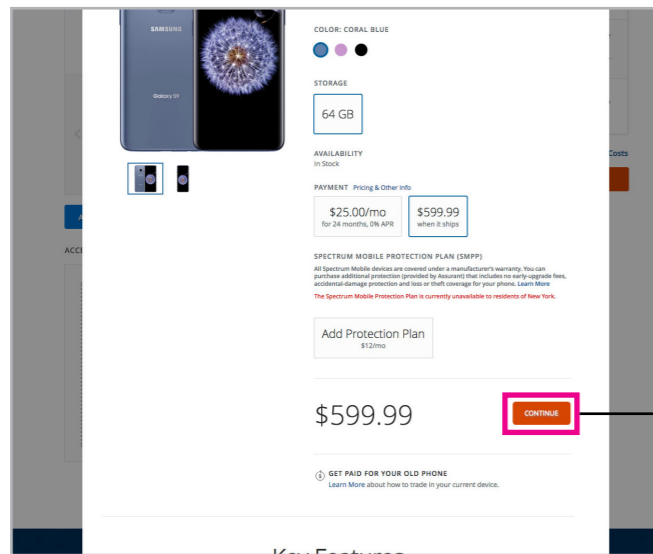

User selects a device using the same functionality as the Spectrum Mobile website. The user is then presented the "Device Details" popup modal.

Users can navigate back to step 1 ("Select Your Device" Page) by selecting the previous button.

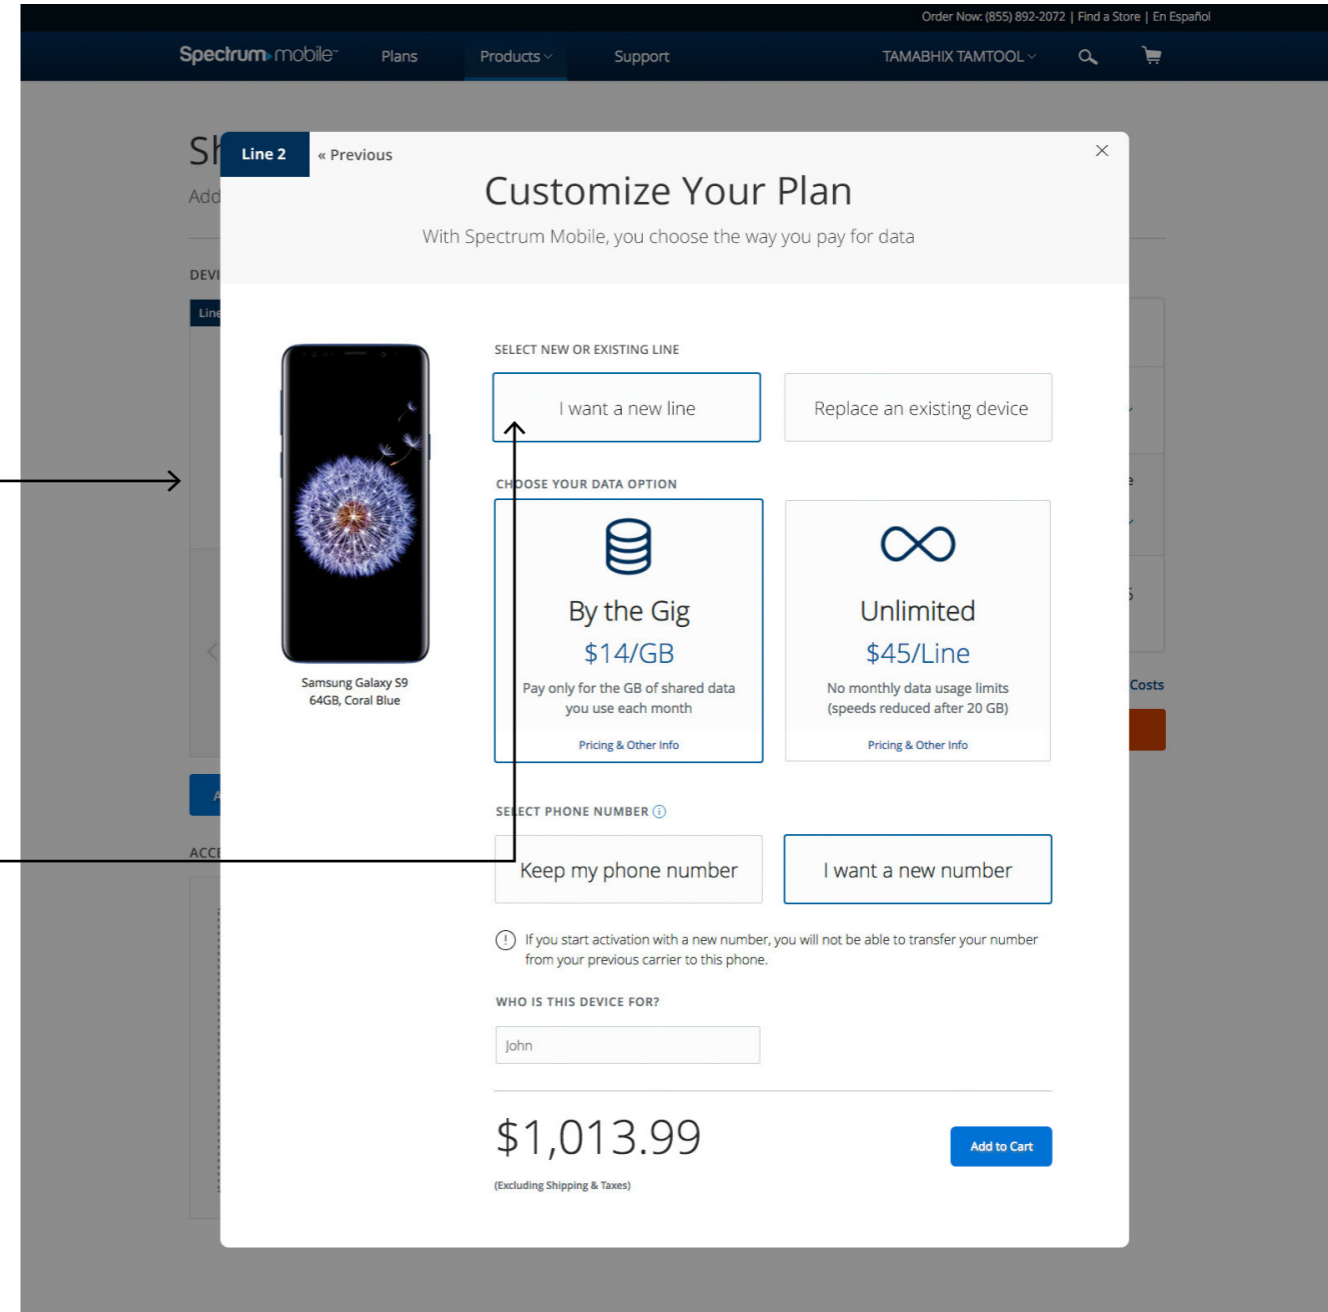

No river graphics or accessories will be displayed on the popup modals. (Only key features).

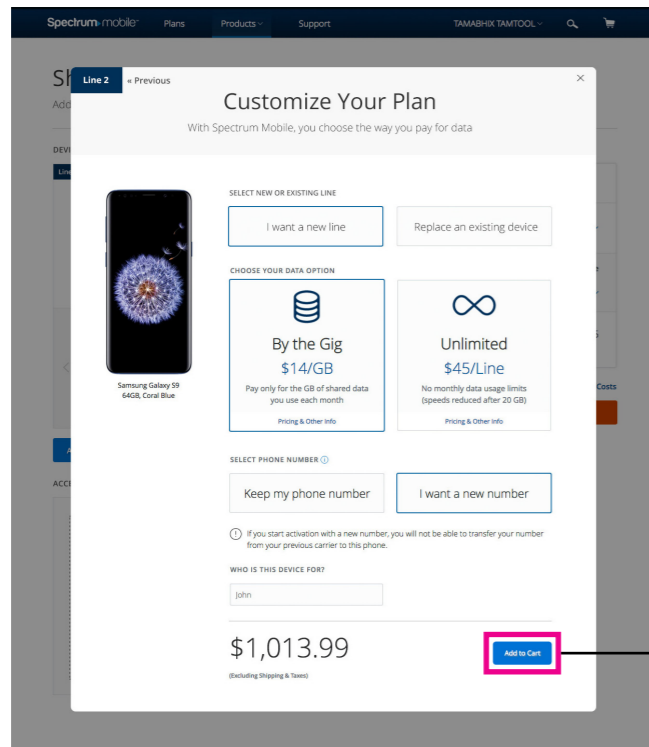

STEP 3: DEVICE DETAILS

User selects "Continue" (using the same functionality as the Spectrum Mobile website). The user is then presented "Customize Your Plan" popup modal.

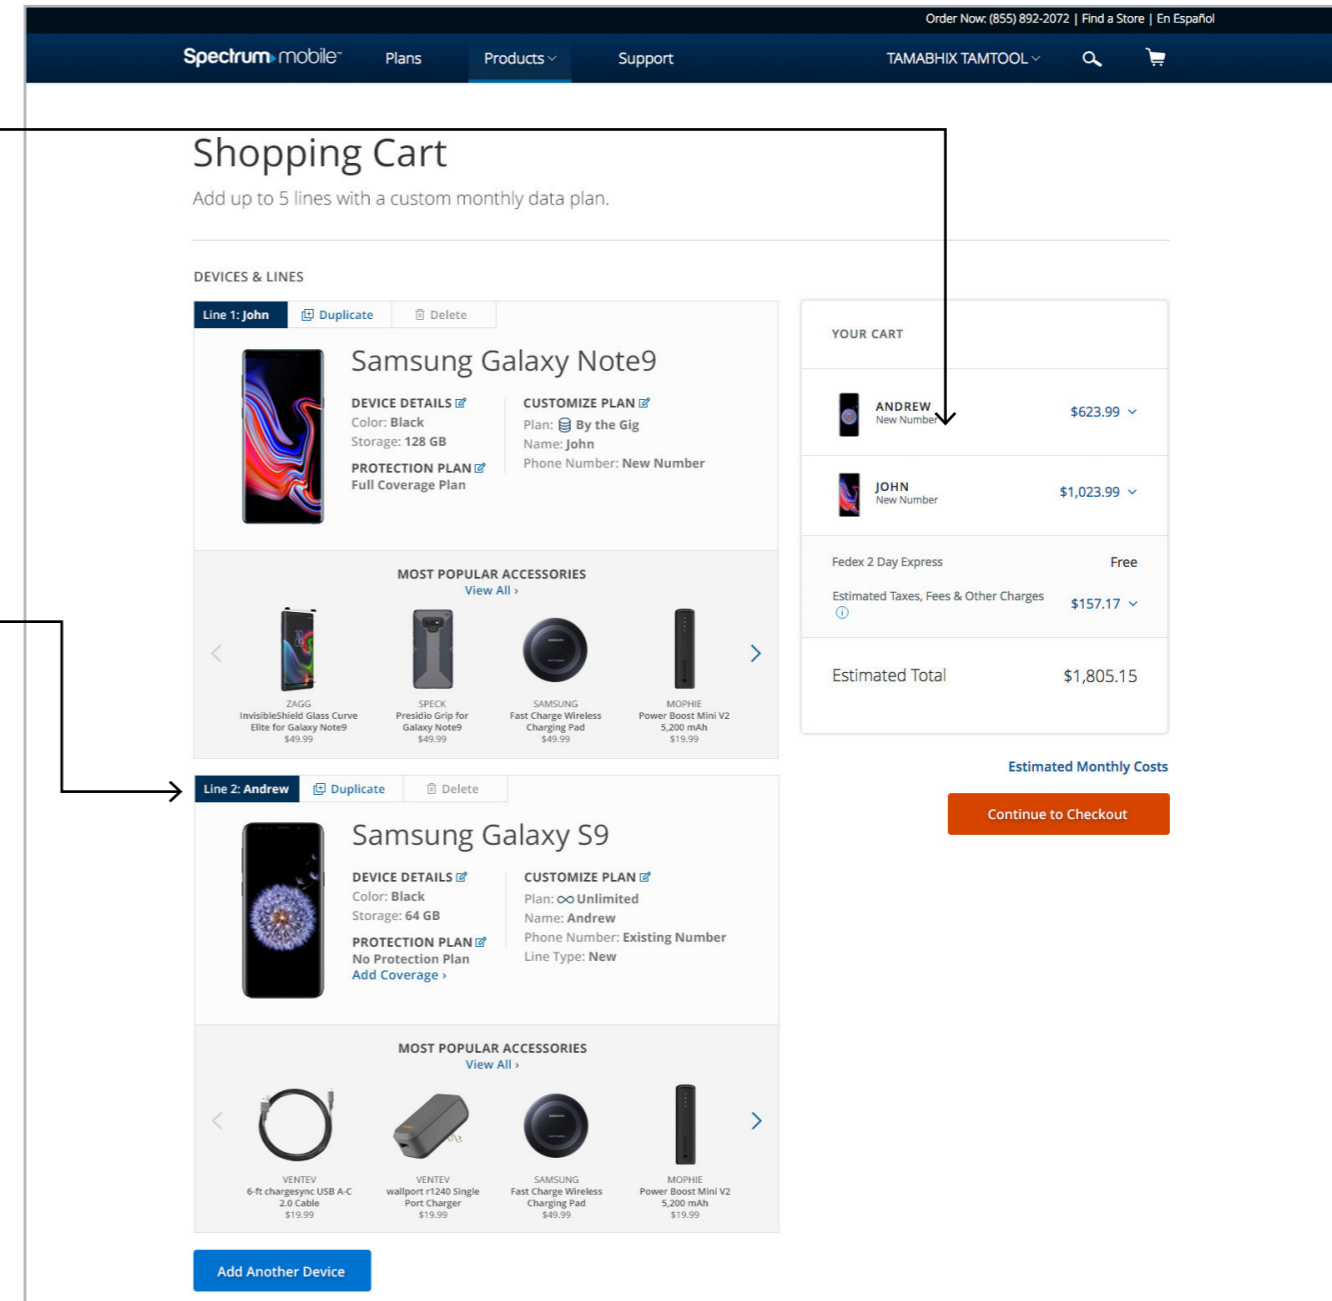

***Note:** Include new section "Select new or existing line" that is currently in production.

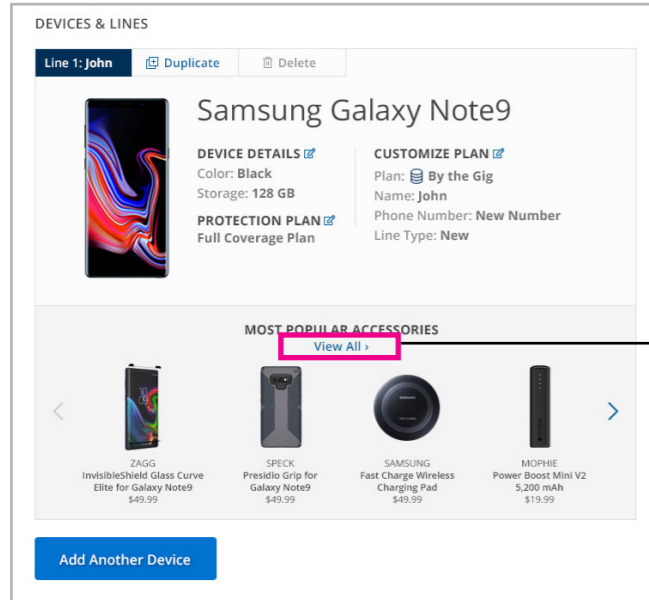

Update the mini cart to reflect the new line being added to the user's shopping cart.

User adds the new device by selecting "Add to Cart" (using the same functionality as the Spectrum Mobile website). The popup modal closes, and the user is presented their updated shopping cart with Line 2 added.

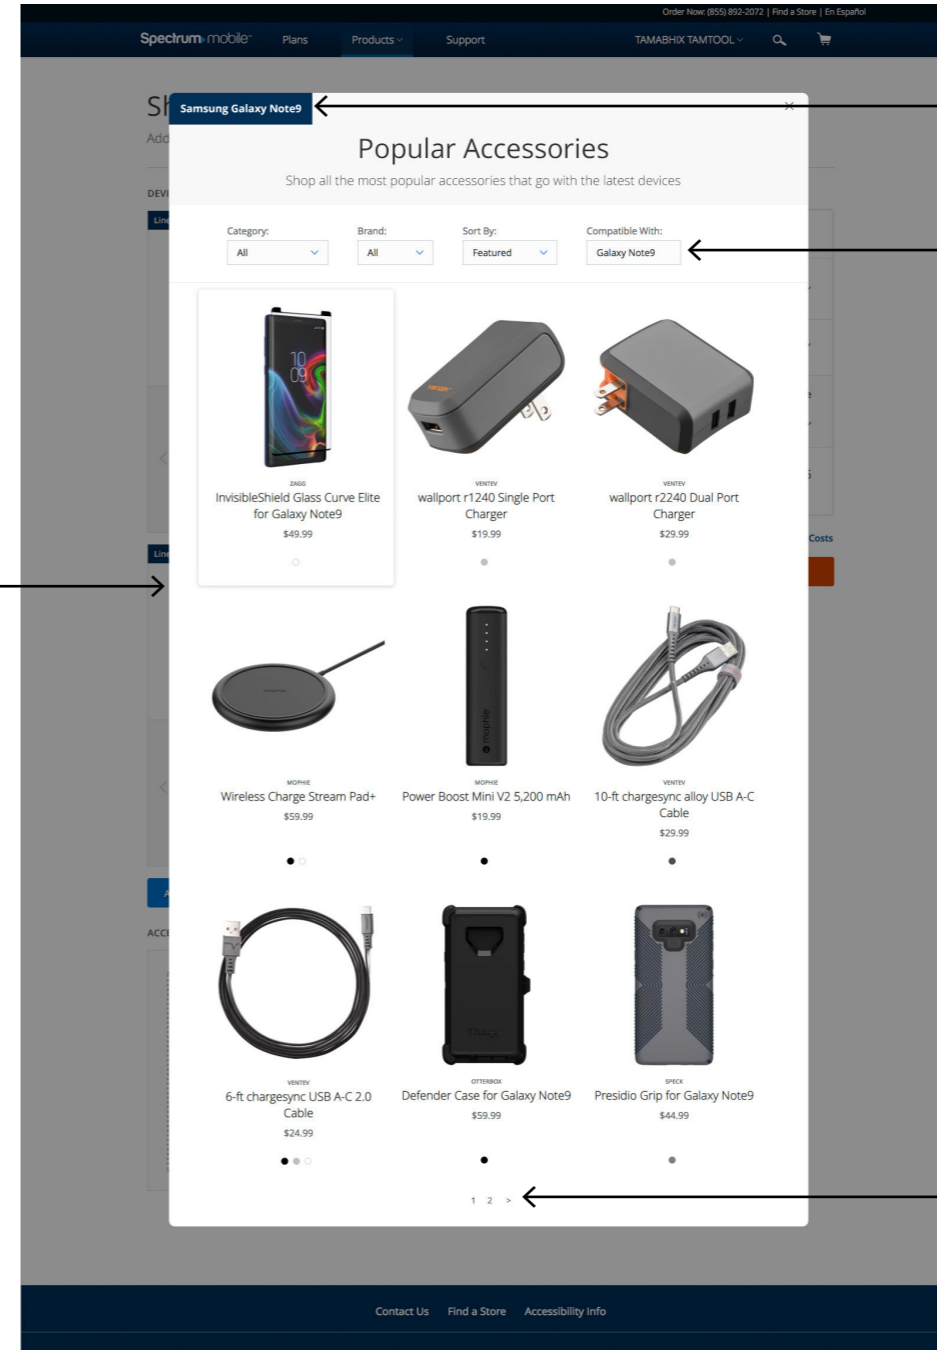

STEP 1: SELECT ACCESSORY

Selecting "View All" opens a popup modal allowing the user to view all popular/compatible accessories. (The popup modal uses the same functionality as the Spectrum Mobile website).

***Note:**
Display 9 accessories at a time on the popup modal.

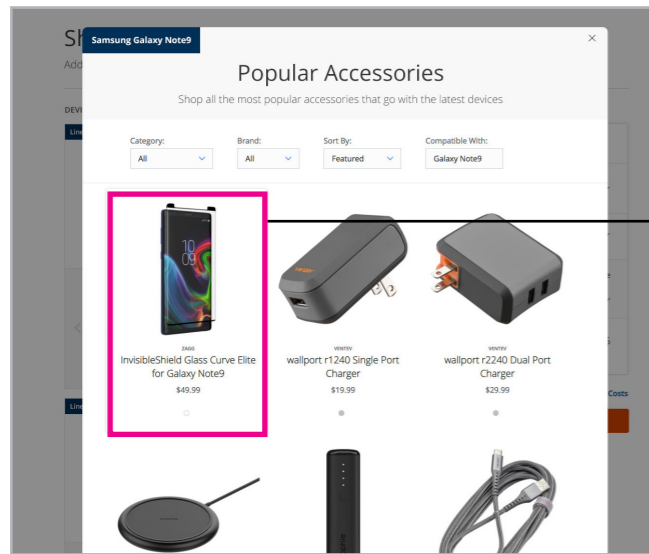

Display the name of the device the user is selecting accessories for.

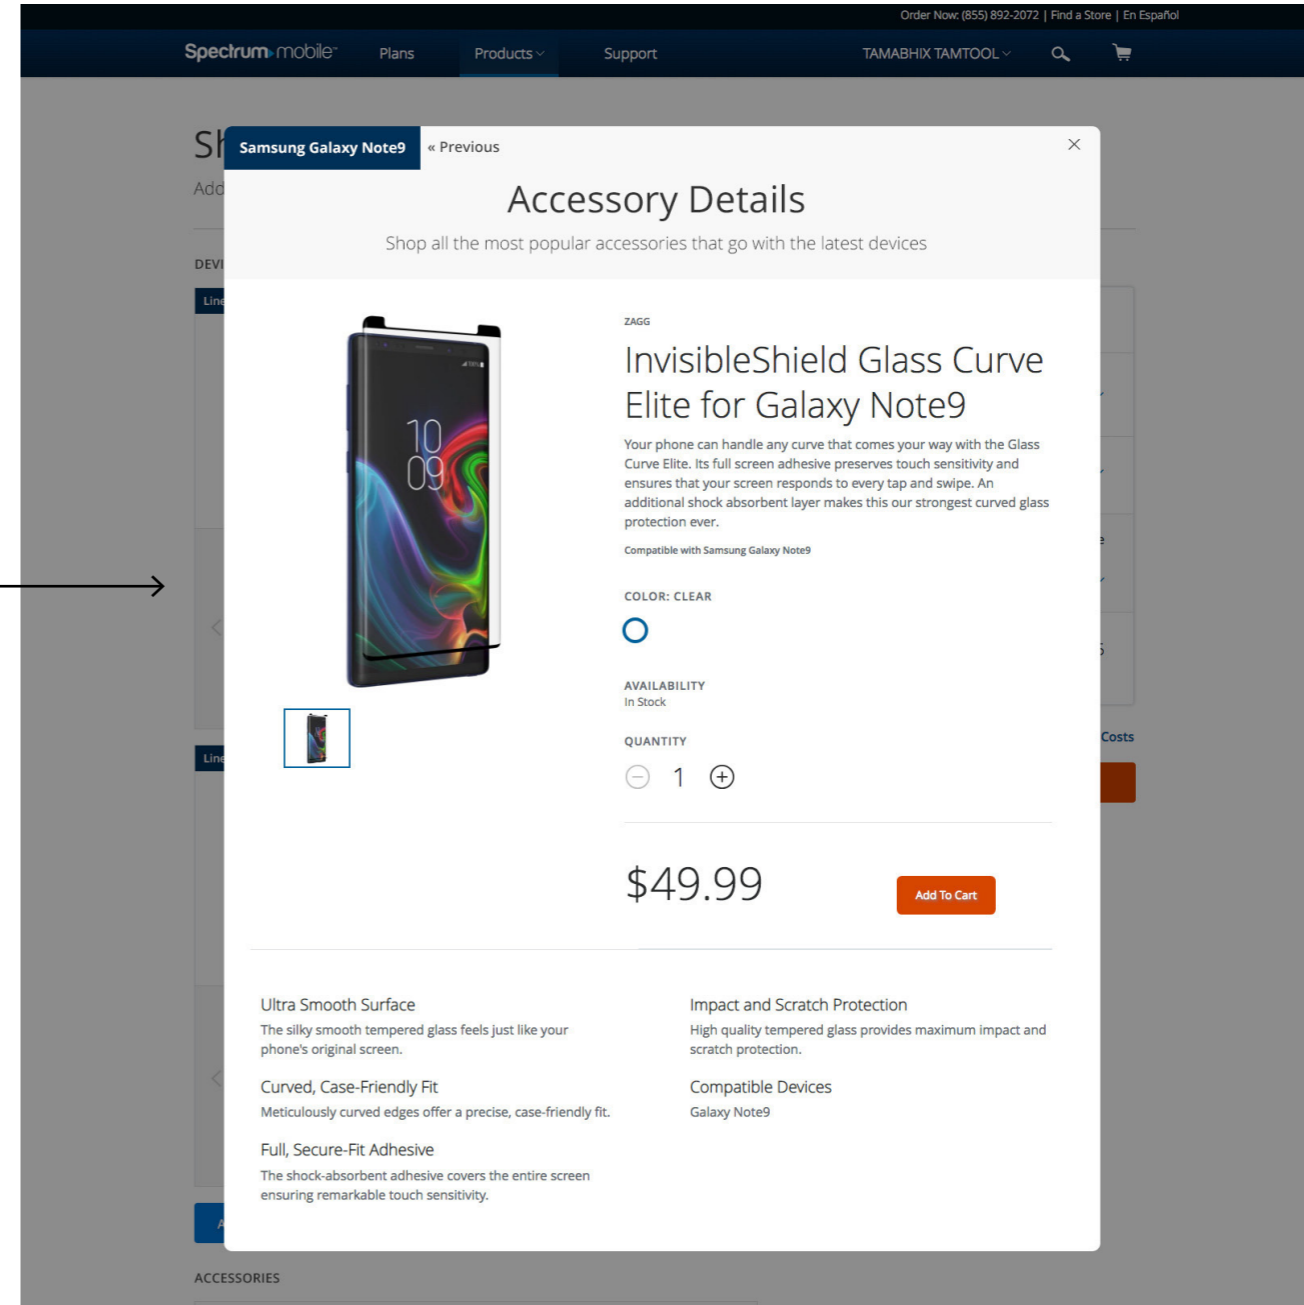

"Compatible With" should be pre-selected to correspond to the device the user is selecting accessories for.

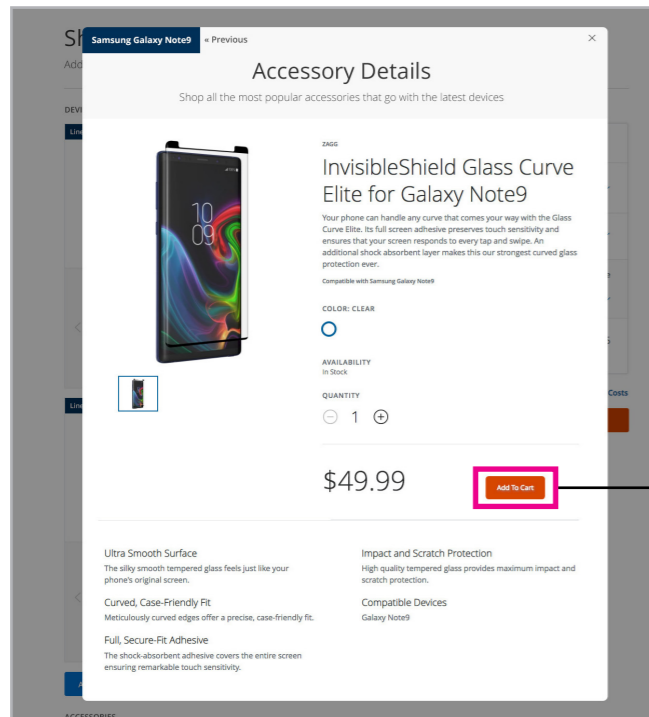

Use the same pagination as the Spectrum Mobile website.

STEP 2: ACCESSORY DETAILS

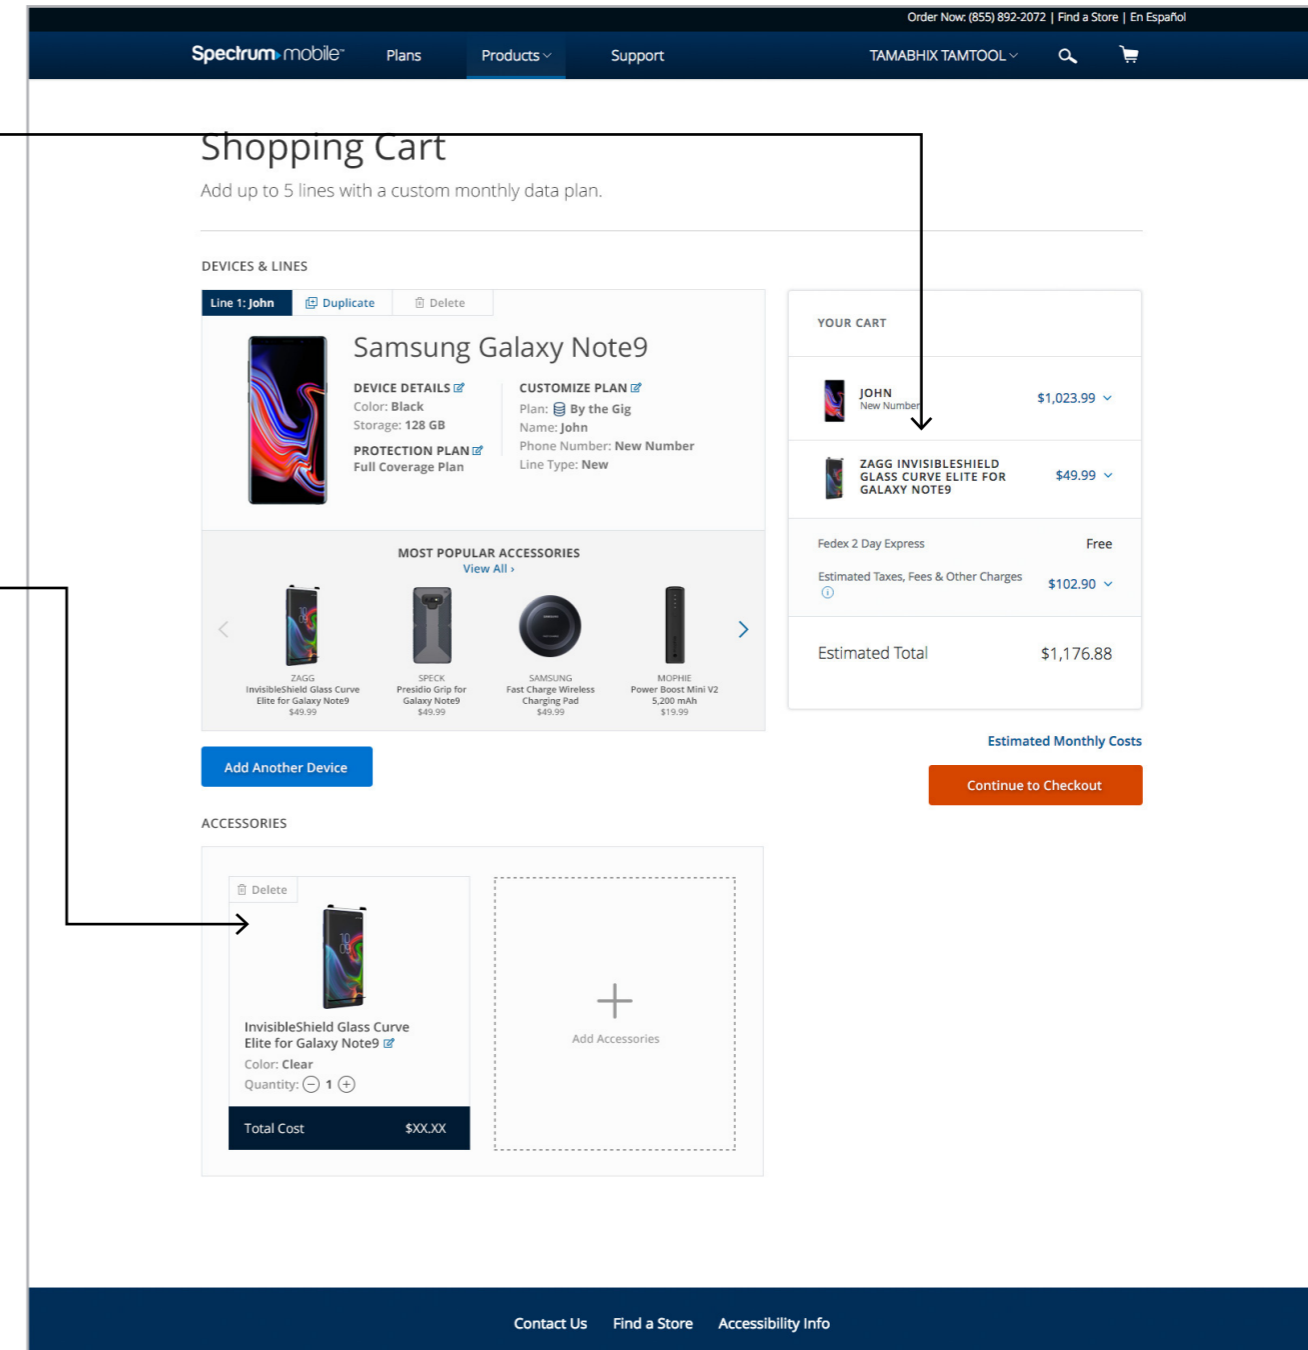

User selects the accessory using the same functionality as the Spectrum Mobile website. The user is then presented "Accessory Details" popup modal.

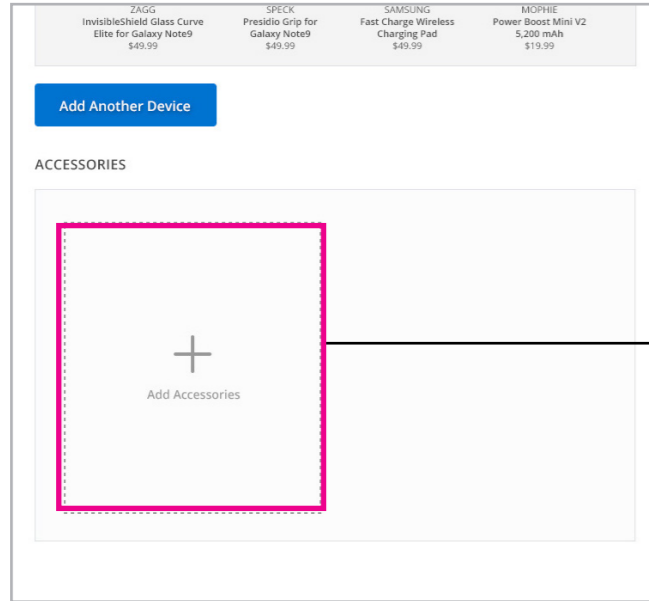

Update the mini cart to reflect the accessory being added to the user's shopping cart.

User adds the new accessory by selecting "Add to Cart" (using the same functionality as the Spectrum Mobile website). Popup modal closes, and user is presented their updated shopping cart with the accessory added.

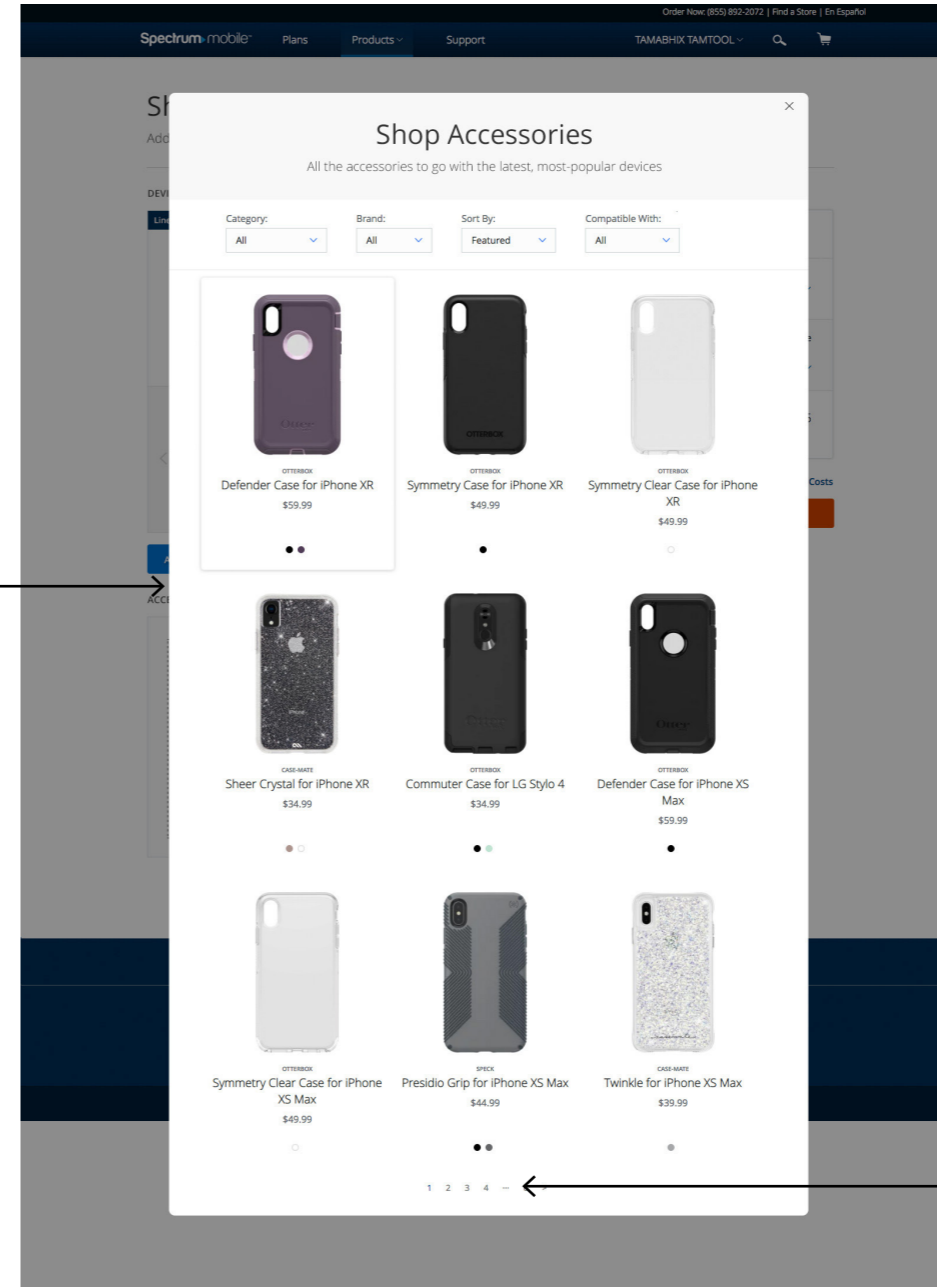

STEP 1: SELECT ACCESSORY

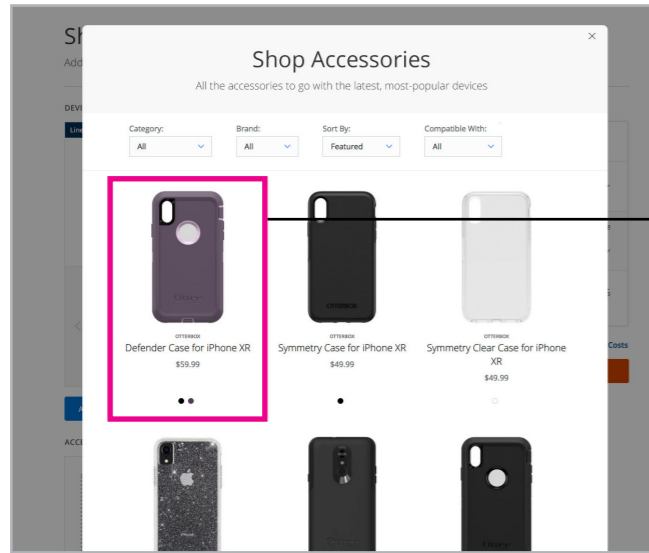

***Same process as "Adding Popular/ Compatible Accessory":**
 Selecting "View All" opens a popup modal allowing the user to view all universal accessories. (The popup modal uses the same functionality as the Spectrum Mobile website).

***Note:**
 Display 9 accessories at a time on the popup modal.

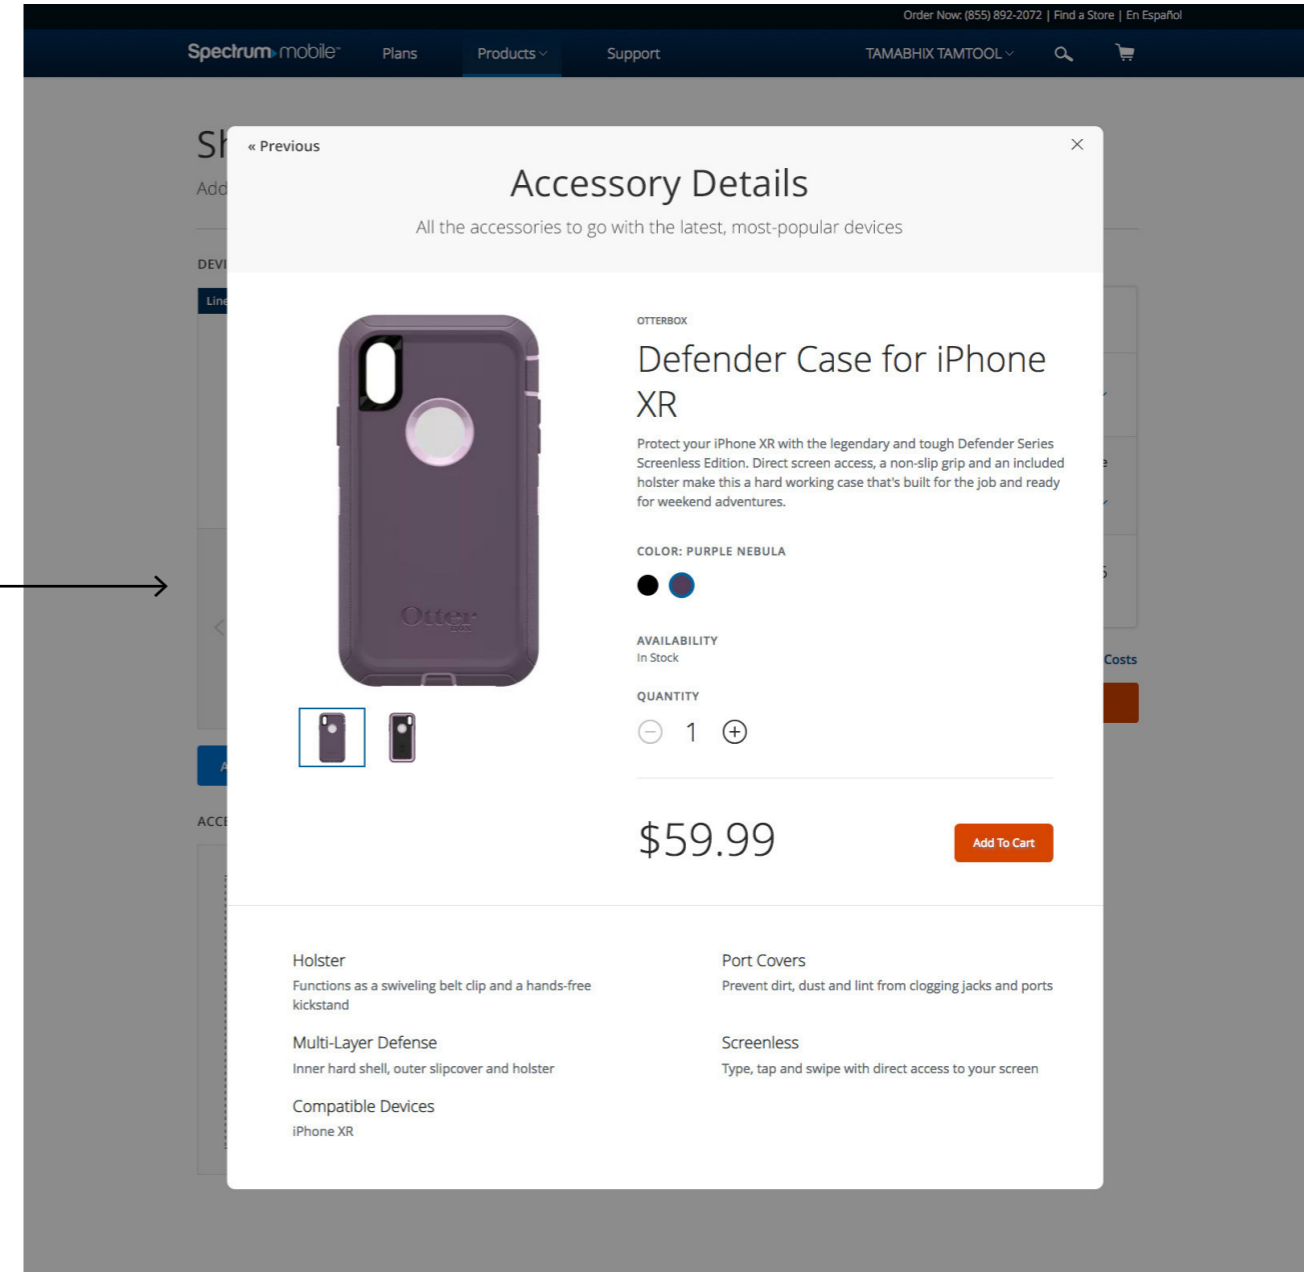

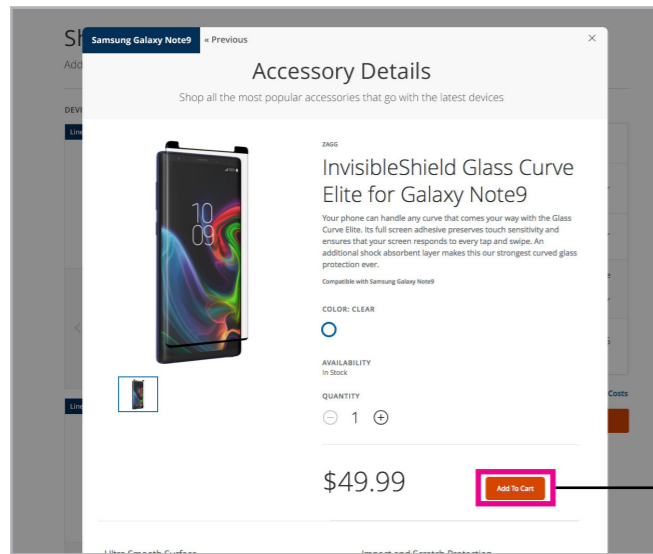

Use the same pagination as the Spectrum Mobile website.

STEP 2: ACCESSORY DETAILS

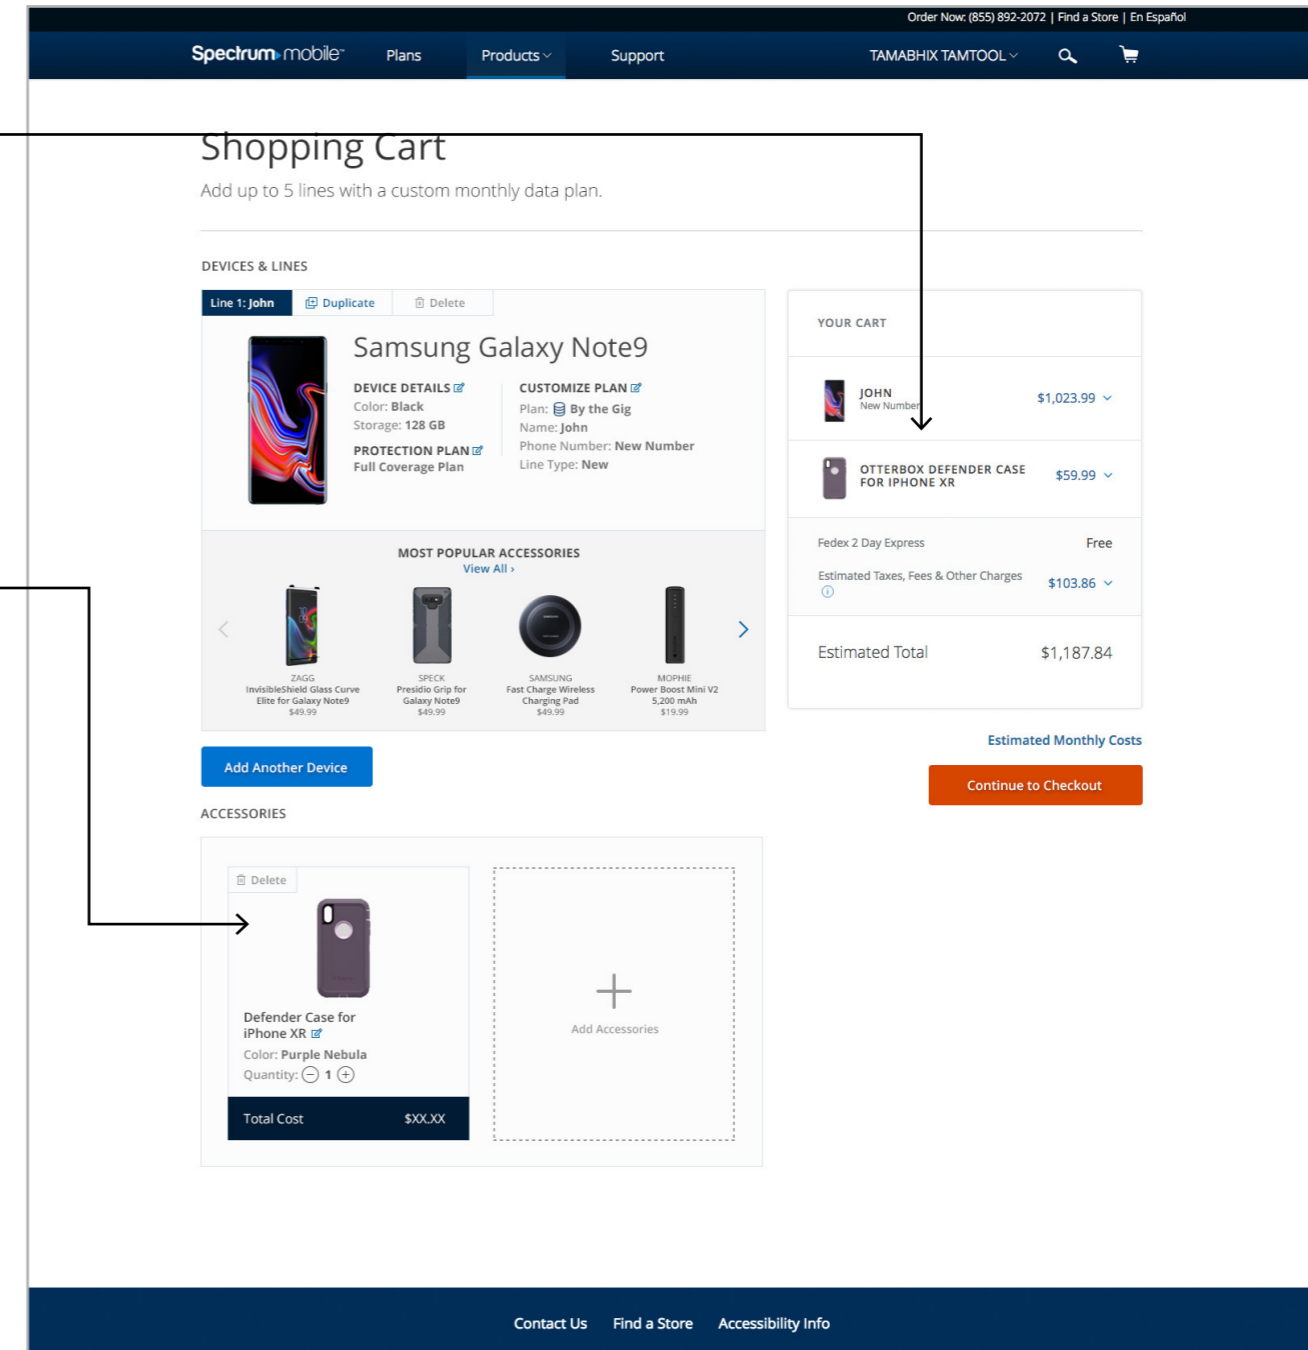

***Same process as "Adding Popular/ Compatible Accessory":**
 User selects the accessory using the same functionality as the Spectrum Mobile website. The user is then presented the "Accessory Details" popup modal.

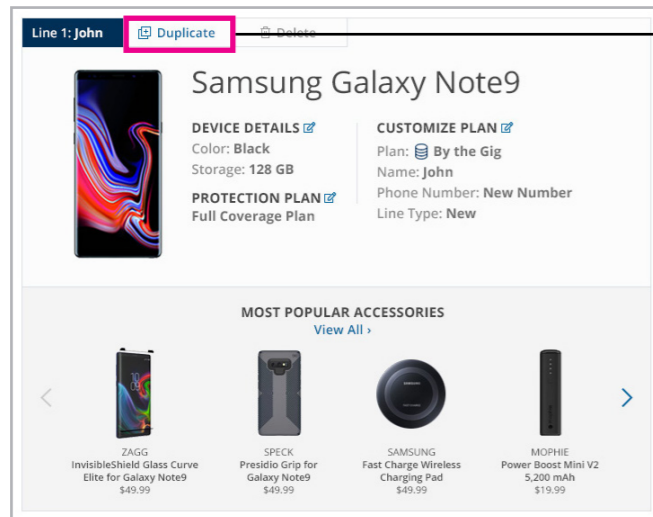

Update the mini cart to reflect the accessory being added to the user's shopping cart.

***Same process as "Adding Popular/ Compatible Device":**
User adds the new accessory by selecting "Add to Cart" (using the same functionality as the Spectrum Mobile website). Popup modal closes, and user is presented their updated shopping cart with the accessory added.

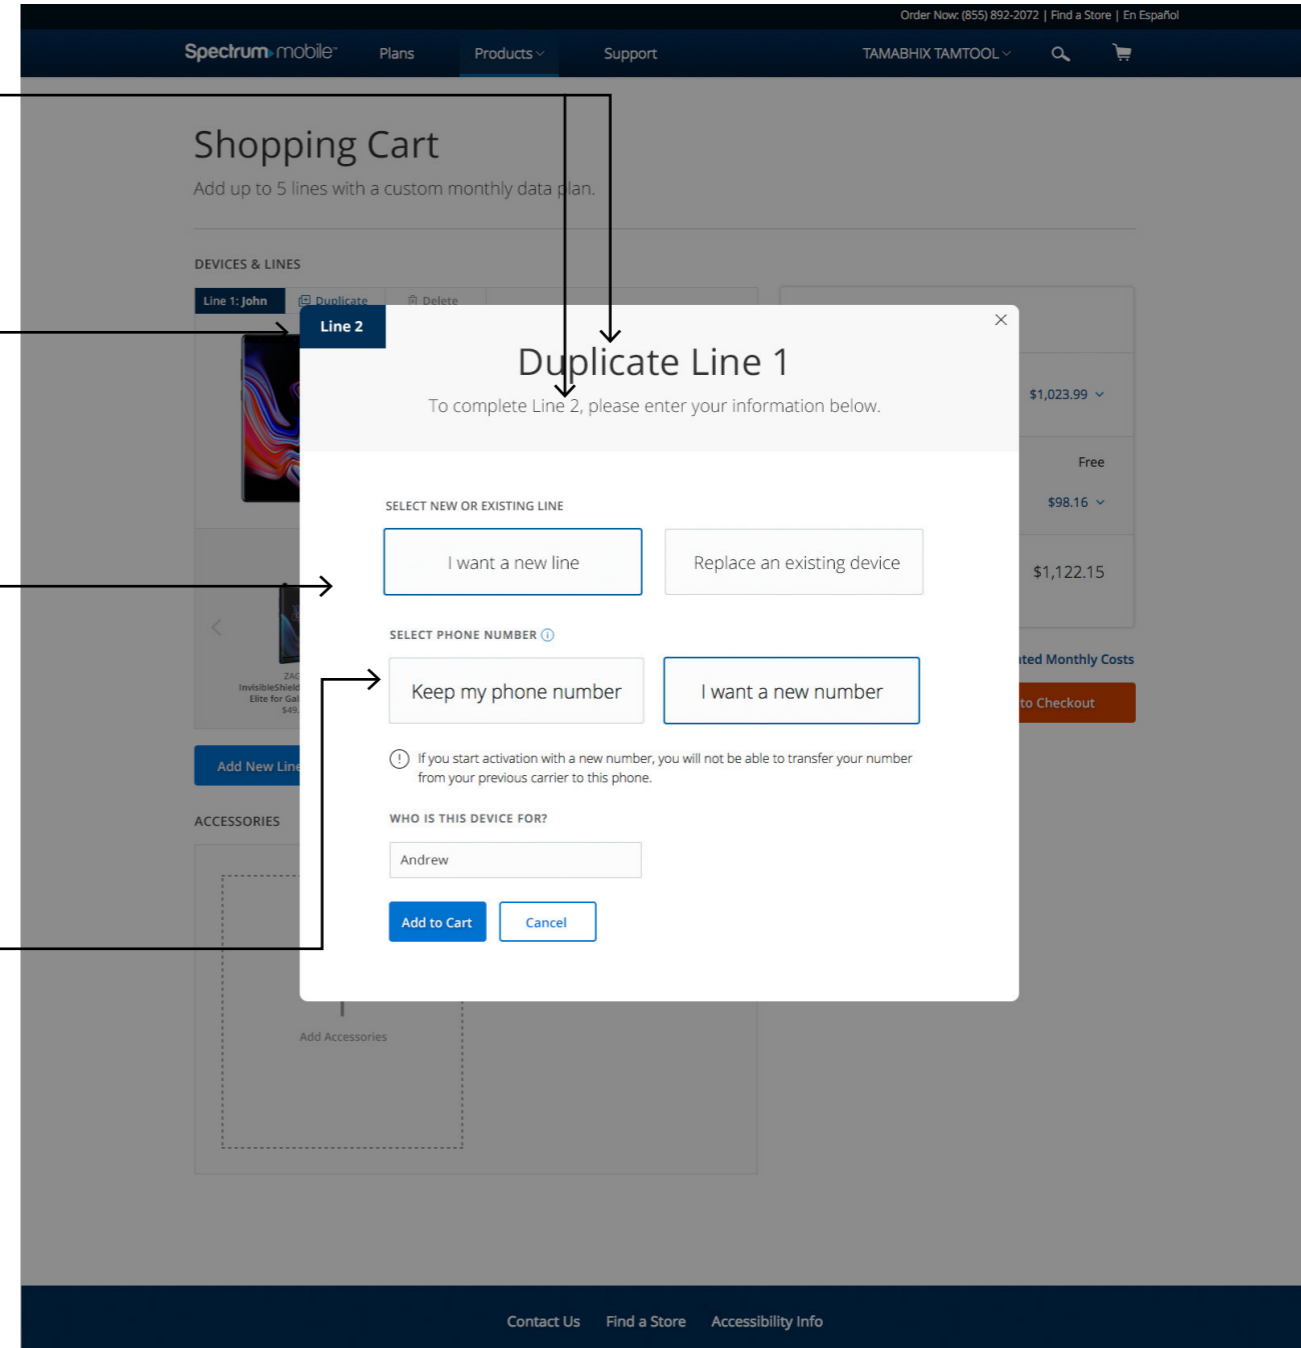

Content updates depending on which line the user selected to duplicate. In this example the user is duplicating "Line 1".

Display the line the user is adding to their shopping cart.

Open the duplicate line popup modal when the user selects "Duplicate". Popup modal uses the same functionality as the current Spectrum Mobile website.

***Note:** Include new section "Select new or existing line" that is currently in production. All other content in the popup ("Select phone number" and "Who is this device for?") is the same that is used on the bottom of "Customize Plan" page/popup.

Line 2 Duplicate Line 1

To complete Line 2, please enter your information below.

SELECT NEW OR EXISTING LINE

I want a new line Replace an existing device

SELECT PHONE NUMBER

Keep my phone number I want a new number

If you start activation with a new number, you will not be able to transfer your number from your previous carrier to this phone.

WHO IS THIS DEVICE FOR?

Andrew

Add to Cart Cancel

Update the mini cart to reflect the duplicate line being added to the user's shopping cart.

User adds the duplicate line by selecting "Add to Cart" (using the same functionality as the Spectrum Mobile website). Popup modal closes, and user is presented their updated shopping cart.

EDIT LINE

Selecting the "edit" icons opens a popup modal to edit the device details. All functionality within the popup modal is the same as the Spectrum Mobile website.

DELETE LINE

When users select the delete button, they are prompted with a popup asking them to confirm or deny the action.

The screenshot displays a mobile application interface for managing devices and lines. At the top, the title 'DEVICES & LINES' is visible. Below it, a card for 'Line 1: John' features a 'Duplicate' button and a 'Delete' button. A tooltip is shown over the 'Delete' button, containing the text 'Are you sure you want to delete this line?' and two buttons: 'Yes, Delete Line' and 'No, Keep Line'. Below the line card, there is a section for 'PROTECTION PLAN' with a 'Full Coverage Plan' and 'Line Type: New'. At the bottom of the main content area, there is a 'MOST POPULAR ACCESSORIES' section with a 'View All >' link and four product cards: ZAGG InvisibleShield Glass Curve Elite for Galaxy Note9 (\$49.99), SPECK Presidio Grip for Galaxy Note9 (\$49.99), SAMSUNG Fast Charge Wireless Charging Pad (\$49.99), and MOPHIE Power Boost Mini V2 5,200 mAh (\$19.99). A blue 'Add Another Device' button is located at the bottom of the interface.

ADD ACCESSORIES

The screenshot displays a product card for an accessory on the left and a call-to-action on the right. The product card includes a 'Delete' button, an image of the accessory, the title 'InvisibleShield Glass Curve Elite for Galaxy Note9', the color 'Clear', a quantity selector set to '1', and a dark blue footer with 'Total Cost' and '\$XX.XX'. The call-to-action is a large dashed grey rectangle containing a plus sign and the text 'Add Accessories'.

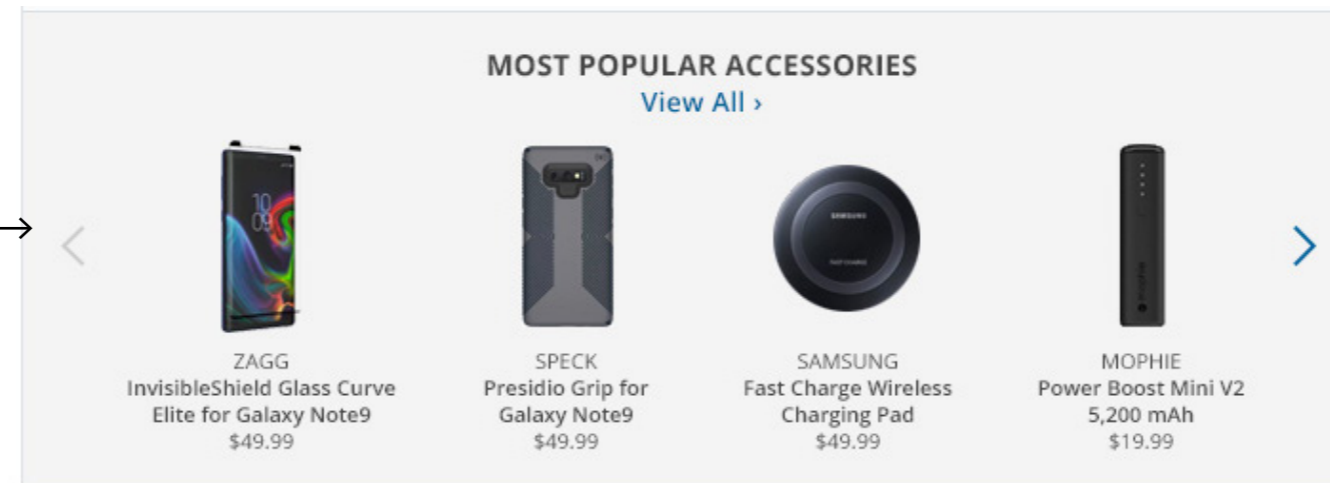

← For each accessory added, the "Add Accessories" call-to-action and grey outline moves to the right or stacks underneath. Only display two accessories per row.

ADD ACCESSORIES: CAROUSEL

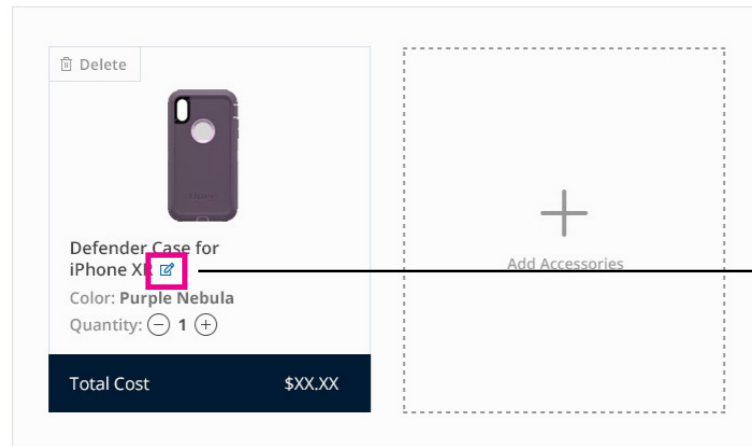

The accessory carousel functions the same as the Spectrum Mobile website. (When user clicks arrows, four accessories slide-out and four new accessories slide-in.)

***Note:**

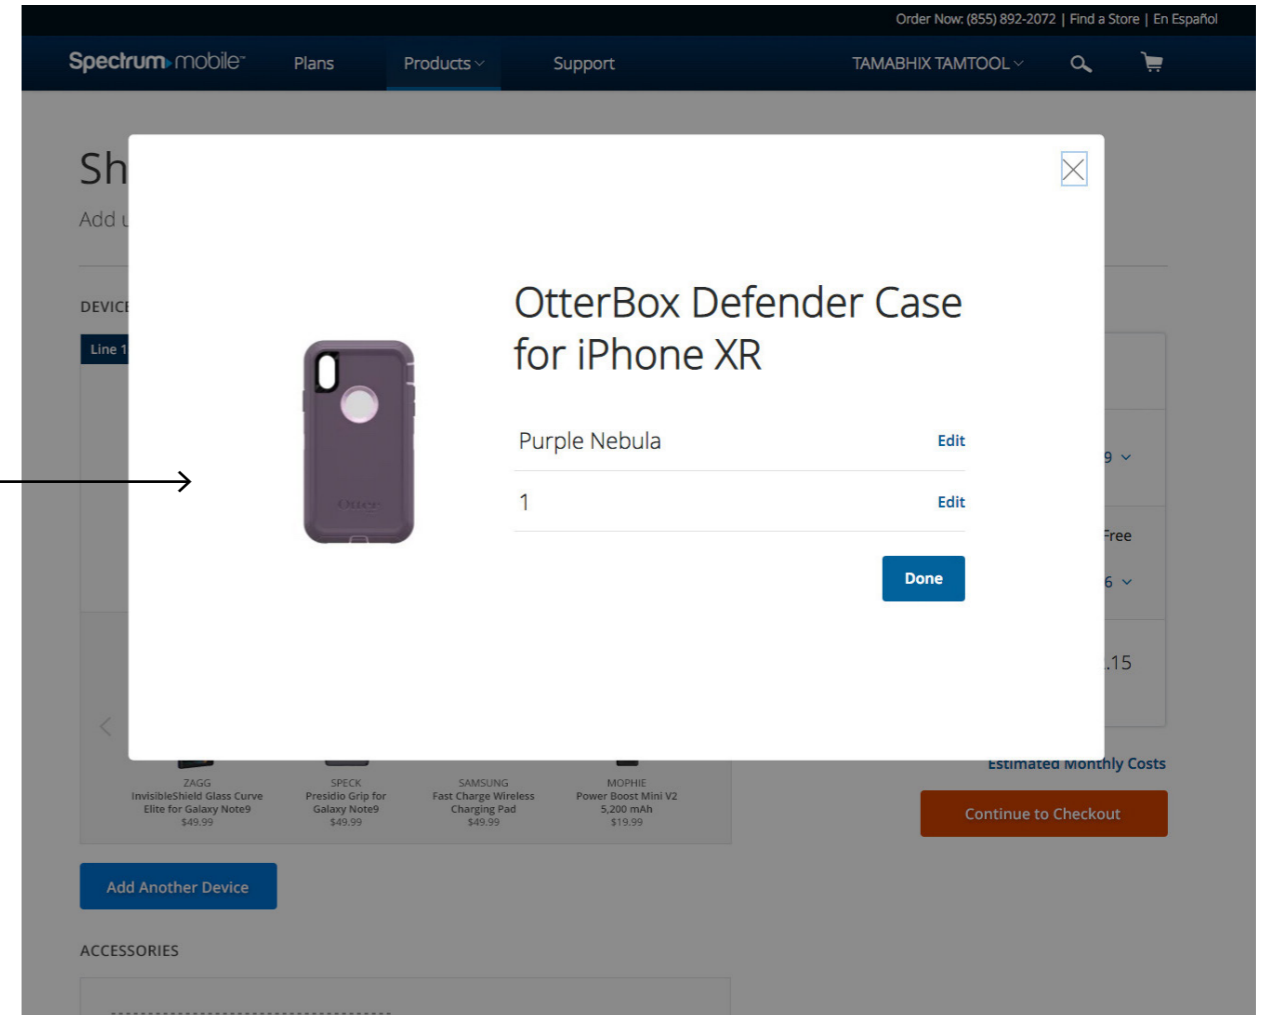

Accessories will be displayed in same order as the are currently on the Spectrum Mobile website. The accessories change depending on which device the user has in their cart.

EDIT ACCESSORY

Selecting the "edit" icons opens a popup modal to edit the accessory details. All functionality within the popup modal is the same as the Spectrum Mobile website.

QUANTITY & TOTAL COST

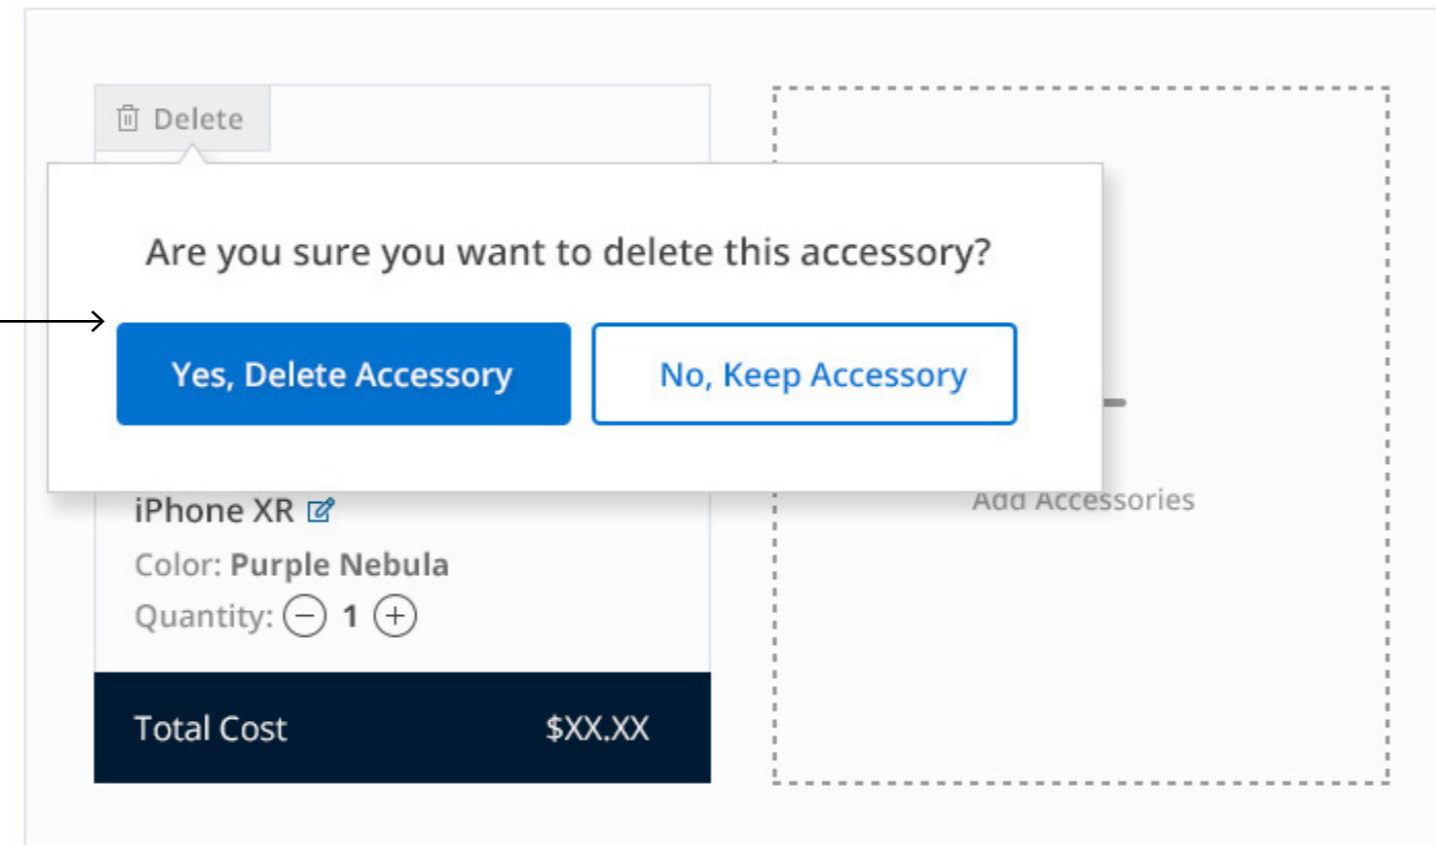

ACCESSORIES

Display accessory name, color, and quantity. User can use plus and minus selectors to adjust the quantity.

Update the price for each accessory added using the "quantity" selector.

DELETE ACCESSORY

When a user selects the delete button, they are prompted with a popup asking them to confirm or deny the action.

ADDED LINES/ACCESSORIES

After the user has selected "Add to Cart", link the user down the page using an anchor link to the exact item in their shopping cart. Since each item added to the cart will increase the length of the page, we want to be sure user's can locate their newly added lines.

***Note:**

This functionality is especially important on mobile devices - and when users add up to 5 lines and accessories (making the shopping cart page very long).

Once a user has added the maximum allowed number of lines to their shopping cart, the "Add Another Device" button becomes inactive/unclickable.

***Note:**

For new customers, the button becomes inactive after 2 lines have been added. (See example)

For existing customers, the button becomes inactive after 5 lines have been added.
